</table>
Agribusiness
You will develop an understanding of management, marketing and finance as well as the relationship of agribusiness to the larger economy. You can even choose to major in international agribusiness or food industry economics.

- Management Trainee
- Manager
- Sales Representative
- Loan Officer
- Real Estate Agent
- Commodity Merchandiser
- Operations Analyst
- Plant Supervisor
- Marketing Specialist
- Food Companies
- Value-Added Companies
- Agricultural Input Manufacturers
- Cooperatives
- Household Product Companies
- Banks and Credit Companies
- Grain Companies
- Food Manufacturers
- Restaurant Chains

Agricultural Economics
You will study the effect of economic factors on agricultural and food industries. This can include consumer demand, marketing, agricultural finance, price analysis, commodity futures marketing, natural resource economics or agricultural policy. You can specialize in quantitative studies, business/farm management or the specialty option of your choice, such as pre-law, natural resources or pre-vet.

- Commodity Merchandiser
- Computer Specialist
- International Development Specialist
- Sales Representative
- Commodity Broker
- Farmers/Rancher/Feedlot Operator
- Consultant
- Extension Agent
- the value of the neighborhood
- Production Credit Associations
- Trade Organizations
- Banks
- Feed and Seed Companies
- Peace Corps
- Livestock Companies
- Government
- Processing Companies
- Software Firms

Agricultural Education
You will prepare to teach agriculture or agricultural sciences in secondary and post-secondary schools. The broad curriculum and emphasis on people skills will prepare you for numerous other careers as well.

- High School Agricultural Education Teacher
- 4-H and Youth Extension Agent
- Agribusiness Sales Representative
- Farm and Ranch Manager
- Human Resource Specialist
- Program Coordinator
- Community College
- Animal Health Companies
- Soil Conservation Service
- Agricultural Finance
- Government Agencies

Agricultural Communications and Journalism
You will learn to combine expertise in agricultural and environmental sciences with communications. Your specialties can include public relations, newspaper, magazine, radio, television, and advertising as well as a specific area of study in agriculture or environmental sciences.

- Editor
- News Broadcaster
- Event Planner
- 4-H and Youth Extension Agent
- Advertising Account Executive
- Staff Writer
- Photographer
- Director of Communications
- Livestock Breed Associations
- Agribusiness and Trade Publications
- Public Relations Firms
- Agribusiness Firms
- Trade and Government Organizations

Agricultural Technology Management
You will prepare for technical management positions in food and agricultural industries. Your focus may include food processing systems, soil and water management, power and machinery systems, electrical systems and electronics, environmental management or agricultural building systems.

- Field Test Analyst
- Regional Service Manager
- Plant Manager
- Sales Representative
- Engineering Manager
- Crop Consultant
- Engineering Technician
- Farm Manager
- Farm Equipment Manufacturers
- Government Agencies
- Agribusiness Firms
- Implement Dealers
- Natural Resource Conservation Service
- Financial Institutions
- Engine Manufacturers

Agronomy
You will study soil, water, plant, environmental, genetic, weed and disease sciences and their relationship to sustaining the nation’s food supply, protecting the quality of the environment and conserving vital soil and water resources. You can specialize in soil and environmental science, business and industry, consulting and production, range management and plant science/biotechnology.

- Crop Consultant
- Soil or Range Conservationist
- Sales Representative
- Farm/Ranch Manager
- Manager
- Research Scientist
- Loan Officer
- Technical Representative
- Production Agronomist
- Foreign Service Agent
- Farm Supply Firms
- Government Agencies
- Seed Companies
- Cooperative Extension Service
- Cooperative
- Chemical Companies
- Seed Companies
- USDA
- Environmental Firms

Animal Sciences and Industry
You will learn all about the animal industry including selection, reproduction, breeding, feeding, management and marketing of beef cattle, dairy cattle, horses, poultry, sheep and swine, as well as the processing of animal products. You can focus on animal production, business, communications, science/pre-veterinary medicine, production management or bioscience/biotechnology.

- Manager
- Sales Representatives
- Livestock Buyer
- Finance and Marketing Specialist
- Extension Agent
- Researcher
- Communications Specialist
- Livestock Photographer
- Market Analyst
- Animal Care giver
- Quality Control Specialist
- Cattle Feeder
- Processing Plants
- Pharmaceutical Companies
- Feed Companies
- Consumer Information Agencies
- Commodity Brokerage Firms
- Marketing Firms
- Livestock Publications
- Livestock Commodity Organizations
- Government Agencies
- Animal Health Firms
- Product Development Companies
- Inspection Services

Bakery Science and Management
You will study the commercial baking industry and related areas with courses in bakery and cereal science, milling, and flour and dough testing. You will develop and use your skills in chemistry, math and microbiology. Your options include production management and cereal chemistry.

- Technical Sales Representative
- Production Supervisor
- Route Salesperson
- Quality Control Supervisor
- New Product Development
- Plant Engineer
- Plant and Production Manager
- Ingredient Suppliers
- Food Companies
- Trade Organizations
- Baking Companies
- Equipment Manufacturers

Feed Science and Management
You will learn about feed science and contemporary feed manufacturing technology, including automation of various processes, ingredient quality and processing, management concepts, animal nutrition, packaging and delivery of finished products, and feed additive uses. An option even exists in biofuels processing.

- Production Manager
- Commodity Trader
- Plant Engineer
- Design/Project Engineer
- Quality Control Supervisor
- Plant Manager/Superintendent
- Purchasing Manager
- Industrial Sales Engineer
- Veterinarian
- Flour Mills
- Food Companies
- Cereal Companies
- Exporting Companies
- Equipment Manufacturers
- Pet Food Companies
- Equipment Manufacturers
- Grain Elevators

Food Science and Industry
You will learn to blend your interests in the basic sciences with the development, manufacturing, evaluation, marketing and safety of food products. You can specialize in food business and operations or science. The science option is great for pre-medicine and pre-veterinary students.

- Product Researcher
- Food Processor
- Product Development Specialist
- Process Researcher
- Flavor and Aroma
- Quality Assurance Specialist
- Production Manager
- Food Inspector
- Product Grader
- Advertising/Marketing Specialist
- Technical Sales Representative
- Processing Equipment Companies
- Ingredient Companies
- Government Regulatory Agencies
- Market Research Companies
- Equipment Engineering Companies
- Restaurants
- Consulting Companies

Horticulture
You will apply the science and art of growing plants to intensive food production, aesthetic value or environmental improvement. Your option can be in golf course management, fruits/vegetables, greenhouse and nursery management, landscape and turf management, landscape design, horticulture therapy, public horticulture, sports turf operations, and horticultural science.

- Manager
- Production Horticulturist
- Landscape Designer
- Sales Representative
- Technical Representative
- Nursery Buyer
- Nursery Sales Operator
- Groundskeeper
- General Manager
- Extension Agent
- Transportation Supervisor
- Crew Supervisor
- Vocational Rehabilitation
- Community Garden Coordinator
- Horticultural Therapy
- Wholesale Plant Operations
- Nursery Facilities
- Greenhouses
- Tree Farms
- Input Industries
- Garden Centers
- Golf Course
- Research Facilities
- Resident and Contracted
- Horticulture Consultant Companies
- Florist Chains
- Retail
- Adult Care facility
- Peace Corps
- Community Mental Health Centers

Milling Science and Management
You will study the total operations of flour milling and related areas and gain a broad background of scientific knowledge of the cereal-grain milling industries and grain products. Your options include management, engineering operations and chemistry.

- Miller
- Manager
- Production Trainee
- Quality Control Specialist
- Commodity Trader
- Systems Engineer
- Milling Companies
- Food Companies
- Grain Companies
- Government Agencies
- Equipment Manufacturers

Park Management and Conservation
You will combine the study of natural sciences with communications, management and social sciences to gain an understanding of the social, political and managerial factors affecting the use of our recreational lands and waters. You will prepare to manage local, state and national parks or city parks and recreation departments with options in park management, interpretation, law enforcement, ranger, outdoor enterprise management and recreation business.

- Program Specialist
- Hospitality Director
- Facility Manager
- City Park Administrator
- Park Ranger
- Interpreter/Naturalist
- Park Director
- Recreation Planner
- Urban Forester
- Youth Agencies
- National Park Service
- Hunting Lodge Director
- U.S. Forest Service
- U.S. Army Corps of Engineers
- State and County Park Agencies
- Public Recreation and Parks Department
- Resorts
- Commercial and Corporate Recreation

Veterinary Medicine/Pre-Veterinary Medicine
You have the opportunity to successfully complete the pre-veterinary medicine requirements in the College of Agriculture and apply for admission to the College of Veterinary Medicine.

- Veterinarian
- Researcher
- Educator
- Public Health Administrator
- Marketing Specialist
- Nutrition Specialist
- Wildlife Manager
- Physiologist
- Private Practice
- Speciality Practice
- Regulatory Medicine
- Government Agencies
- Pharmaceutical Companies
- State and Municipal Inspection Services
- Environmental Health Agencies
- State and United States Army Veterinary Corps
- Animal Health Firms
- Laboratory Animal Programs
- Zoos

Wildlife and Outdoor Enterprise Management
You will integrate management practices of wildlife, fisheries, natural resources, hotel/restaurant operations and business with “in-the-field” outdoor skill experiences. You will be trained in professional operational management for hunting/shooting preserves and resorts, game bird production, fishing resorts and outdoor experience companies.

- Gamebird Production Entrepreneur
- Hunting Resort Manager
- Hunting Guide
- Fish Farming
- Big Game Hunting/Facility Management
- United States Army Veterinary Corps
- Wildlife Firms
- Adventure Experience Consultant
- Outdoor Equipment Manufacturer
- Outfitter Companies
- Agri-tourism Coordinator
- Hunting Preserves

General Agriculture
You will have the opportunity to explore different majors while studying agriculture. You will take courses, applicable to any major, that allow you to explore your interests and prepare you to select a specific major.
